Auburn Montgomery
AUM Wi-Fi

Apple iPhone® & Android Phones®

User’s Guide & System Documentation

March 2022
Wi-Fi for iPhone OSX and Android
**Wi-Fi Set-up >> Apple iPhone®**

1. Start by tapping on your **Settings** app.

2. Tap on **Wi-Fi** and then ensure that Wi-Fi is enabled. If it is not, please switch it to **On**.
3. Then select the SSID you want to connect to. In this example, we will be connecting to **WarHawk-Wifi**.

4. Next, type in your AUM username and password. Then, tap Join.
5. **Accept** the certificate being presented.

6. After your credentials are verified, you will then be connected to the network.

- **Please note:**
  If you get a message stating that you are “unable to connect to the network”, tap **Dismiss**, then **Accept the certificate again**. *This may happen several times.

  If you still have trouble connecting to the Wi-Fi on your mobile device, please contact the Help Desk for more assistance. 334.244.3500
1. From your home screen, tap the **Settings** icon.

2. Choose the **Network & internet** option and then tap **internet**.
3. Select the SS ID you are wanting to connect to. In this example, we will be connecting to **WarHawk-Wifi**.

4. Make sure your settings match the following:
   - EAP Method: PEAP
   - Phase 2 authentication: MSCHAPV2
   - CA Certificate: Use System Certificates
   - Online Certificate Status: Do Not Verify
5. If prompted for Domain, type in aum.edu

Next, enter your AUM Username into the “Identity” field and your password in the “Wireless password” field.

*Leave the “Anonymous identity” field blank.

Note: When typing your AUM username, do not include @aum.edu

6. Then, Connect.

7. You should then see Connected under the “WarHawk-Wifi” network once you have successfully connected.

If you still have trouble connecting to the Wi-Fi on your mobile device, please contact the Help Desk for more assistance. 334.244.3500
